Unveiling Security's New Paradigm | 揭示保安的新運作模式

人工智能和物聯網產品的技術進步和人力短缺是推動保安運作變革的關鍵力量。在這次會議，我們將探討這個轉變帶來的挑戰和機遇，並研究一些確保投資回報和提高服務質素的實用策略。

AI and IoT offerings in technological advancement and manpower shortage are the key forces in driving changes in security operations. At this conference, we shall explore the challenges and opportunities in this transformation and look into some practical strategies for ensuring return on investment and improving service quality.
