# Introduction

## Live Green, Build Smart, Be Recognised!

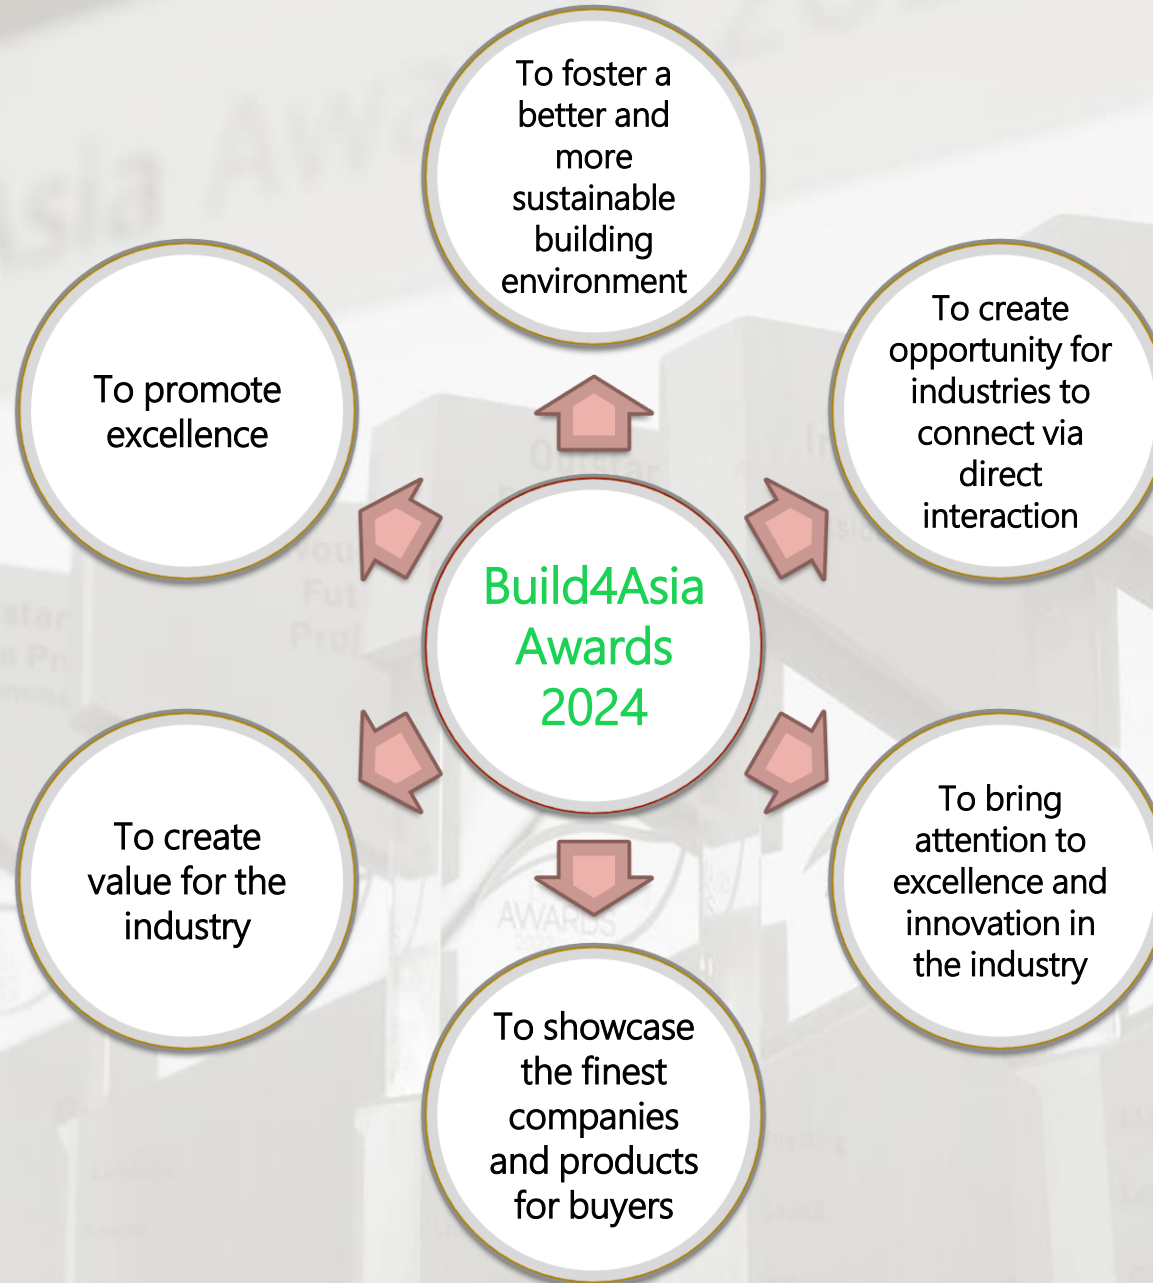

Jointly organised by Build4Asia and PRC Magazine, Build4Asia Awards 2024 celebrate design excellence, innovation and achievements in sustainability.

The Awards, in two halves, namely Building and Innovation categories, honour developers, architects, interior designers, contractors, engineers, manufacturers and others who have demonstrated professional excellence in delivering projects and services that have contributed to a quality and sustainable built environment.

New Awards in 2024 include ***Innovation in Façade Design***, ***Lighting Design***, and more. The highest honour bestowed by Build4Asia Awards is the ***Excellence in Sustainability Award*** presented to the project that demonstrates the highest achievement in sustainability.

# Judging Criteria

## Innovation in Design and Materials

*Judges will reward projects and products that show innovation in design that leads to higher standards of liveability and performance.*

## Sustainability

*Judges will look for projects and products that improve environmental standards, increase lifespan and reduce waste, use resources sustainably, source materials locally and reduce our collective footprint.*

## Demonstration of Excellence

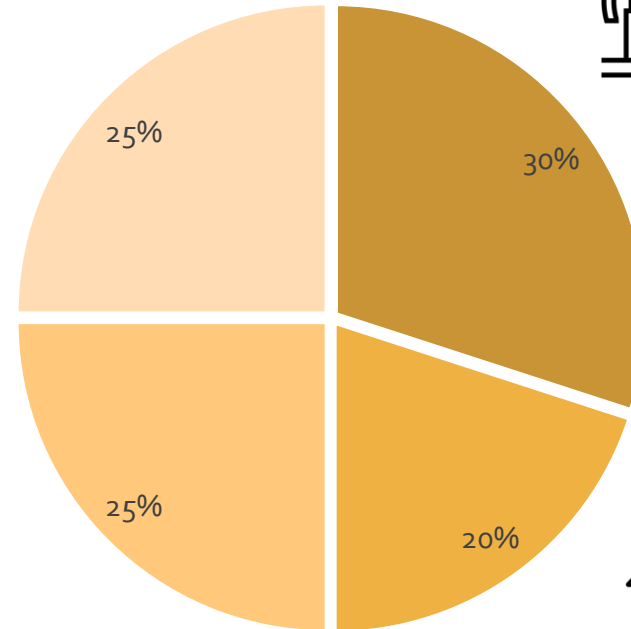

*Judges will look for projects and products that improve the standards of liveability and functionality that lead to enhancements in the built environment.*

## Benefit to the industry

*Across the spectrum of industry, judges will look for designs in projects and products that assist practitioners to help to raise performance standards and efficiency.*

# Judging Panel

The Build4Asia Awards 2024 Judges are all highly experienced designers with a wealth of local and international experience.

The organisers are most grateful for the Judges' time and highly-valued insights, and look forward to sharing their comments at the conclusion of this year's Awards.
