

COOLNOMIX®

An intelligent energy saving device that

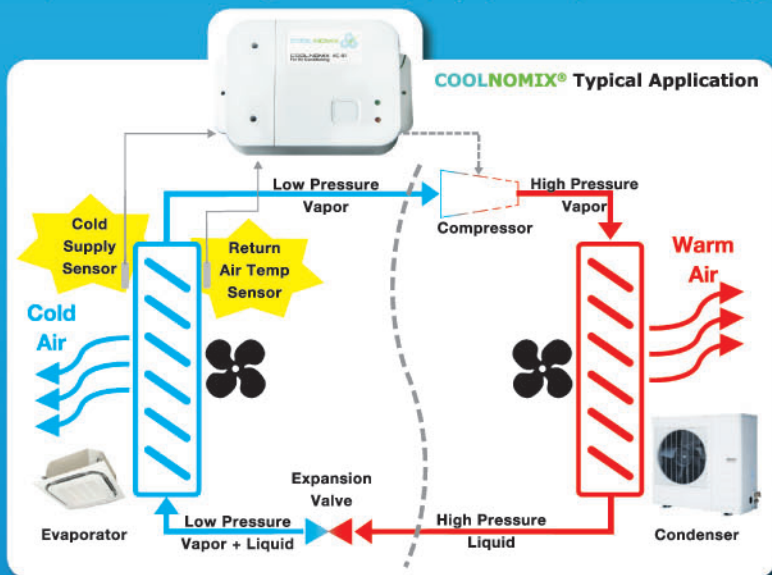

Saves an average of **30-40%**

Energy Consumption

of your air-conditioner / refrigerator.

Optimized Refrigerant Supply (ORS®) Technology

- Employs two temperature sensors
- Intelligent algorithm optimizes running time of compressor
- Delivers fixed-minimum space temperature
- Internationally patented technology

Benefits

- Saves energy cost by an average of 30 - 40%
- Eliminates icing build up on evaporator unit and risk of water dripping from condenser unit
- Improves temperature stability

Applications

- Suitable for all refrigerant-based air-conditioner/refrigerator
- Split-type air-conditioners (e.g. wall-mounted, cassette, ceiling suspension), package, walk-in refrigerator and cooler
- Compatible with VRV, VRF and fixed-speed compressor
- Good for retrofit or new installation

Installation and Warranty

- Simple installation
- No invasion of equipment control board
- 3-years warranty
- Zero maintenance

Available Series

- AR-01 for refrigerator 0 - 15°C
- AC-01 for air-conditioner 16 - 31°C

International Accreditation
